- Section 1. The M.V.A.L. must comply with the N.C.S./C.I.F. Initial and Continuing Scholastic Eligibility Rules.
- Section 2.
- a. The league shall establish the date of determination for scholastic eligibility for each regular grading period. (10/8/87)
 - b. The following are direct excerpts from the N.C.S./C.I.F. Constitution and bylaws, which the league must adhere to:

2090 Initial Scholastic Eligibility (CIF 204)

Any student entering from eighth grade into a C.I.F. four-year high school, a junior high, or junior high under the provisions of N.C.S. 202 must have achieved a 2.0 grade point average in enrolled courses on a 4.0 scale the previous grading period in order to be eligible. The student is scholastically eligible under all other C.I.F. scholastic eligibility rules. Any student entering the tenth grade of any C.I.F. high school must have passed 20 semester periods of work in the previous report period.

The governing board of each school district, private school, or parochial school may adopt, as part of its policy, provisions that would allow a student who does not achieve the above requirement in the previous grading period to remain eligible to participate in interscholastic athletics during a probationary period. The probationary period shall not exceed one semester in length but may be for a shorter period of time, as determined by the governing board of the school district, private school, or parochial school. A student who does not meet the above requirements during the probationary period shall not be allowed to participate in interscholastic athletics in the subsequent grading period.

2091 Continuing Scholastic Eligibility

A student is scholastically eligible if:

- d. The student has maintained during the previous grading period a minimum of passing grades which is defined as at least a 2.0 grade point average in all enrolled courses on a 4.0 scale.

2091.2 Probationary Period

The governing board of each school district, private school, or parochial school may adopt, as part of its policy, provisions that would allow a student who does not achieve said educational progress items (c) or (d) above in the previous grading period to remain eligible to participate in interscholastic athletics during a probationary period.

A student who does not achieve said educational progress as defined in items (c) or (d) during the probationary period shall not be allowed to participate in interscholastic athletics in the subsequent grading period. For the purpose of determining the maximum length of a semester, the measure should be the maximum as used in that school.

2901.3 Regular School Grading Period

The regular school grading period is that time when all students in a school are graded. If two grades are given at

the end of a grading period, scholastic eligibility shall be established according to the grade issued for credit.

NOTES:

1. For playing contests, one grading period does not end until the next one begins.

2. Each member school must file its dates of determination for scholastic eligibility for each regular grading period with its league or conference. All students shall be declared eligible or ineligible for athletics for the following grading period on the respective dates.

2091.4 Incomplete Grades

A grade(s) of "Incomplete" shall not be considered a passing grade under this Bylaw unless, by operation of a school grading policy, said "Incomplete" grade shall become a passing letter (or numeric) grade without further achievement or accomplishment by a student, at a certain time.

When an "Incomplete" grade is issued which does not automatically become a passing grade, as indicated immediately above, such "Incomplete" grade shall not satisfy the requirement of this Bylaw until the academic deficiency which gave rise to such "Incomplete" grade shall have been satisfied and a passing grade has been substituted for the "Incomplete" grade. Upon such substitution, the substituted grade shall be considered in determining scholastic eligibility as established by evaluation of previous grading period grades and the substituted grade. A scholastically ineligible student may become immediately scholastically eligible upon such evaluation.
